To Whom it May Concern:

I understand that the White Springs Ranch will be applying to Money Savor for a grant to assist in the purchase of archival materials and window repair materials.

White Springs Ranch is unique in Idaho, and surely is among the most rare of historical sites nationally. I know of no other site that so thoroughly and extensively documents the lifestyles of multiple generations of a single family. The family home, as well as the photographs and manuscript materials retained at the Ranch, have invaluable historical significance.

Any assistance Money Saver is able to provide to help preserve this material will go far in retaining an Idaho treasure.

Sincerely,

Keith Petersen, State Historian/Associate Director
