April 9/08

Dear brother

In reply of the welcome receipt of your letter of the sixth shall endeavor to write a few lines this evening.

As usually am well and happy hoping the same of you, only that I am dead broke and dont know where I am going to get my next five cent piece.

You may wonder why I am so soon in answering your letter but for the sole purpose of asking you to get me a job there some where as soon as possible. would rather be close to Colton than Uniontown as you may already know that Clara and I have had a break up if you will wish you could see in regard to a place and I would rather work by the day, what ever the going price is, try a \$1.25 job if possible, and you be somewhat careful as to how he looks dirty or clean. wish I could have an answer by Sunday. even a place like Muller's would be pretty good. or Schoff at Colton but not Weber, haha

Clara was here in Pullman some time ago to visit Mae Vaultk and I saw her.

Got a letter from Henry or rather a postal stating he has vacation and is fixing fence.

Say kid see John Hahl (Hail) about a job he generally has a man and maybe he would hire a kid or John Wiley, John Heisterman, be sure not at Drussels, or you may be able to get me a job at one of the store's but you butter not try at Vollmer as we don't agree, the "S.of.a B"

How is Mamie? And Sophia?

Say I want to tell you something but be careful none of the people get to read it as I am not sure of it, and that is the Taufen's have "head lice", now be sure to burn especially this page.

This is a theme instead of a letter.

W.S.C played the first game of Base Ball to-day with Lewiston Normal School. dont know what the score is but at the end of it was about 25 to 0 in our favor.

There is all kinds of doings going on here this week, a meeting of all teachers of four states and talk about fun, was out every night this week but tonight and tomorrow night I am going to the Rink if Jay will come through with it

Say if you see Clare soon, tell her I sending best wishes but don't tell any one that I am coming only try to get me a job and all at once I will pop in see!!!!!!

You want to try and get well acquainted with her she is jolly, and a fair dancer, try to take her to a dance and see how jealous the Taufen girls get. try to get acquainted with Joe Esser and some of those fellows and you will soon get more and better known and if I come it won't be a hard matter to find some place to go and have a good time.

Saw Johnie Broemling last Sunday, spoke only a few minutes & he had with him Mat Krier, Gee! but he is green,

Saw Elva Gray the other day and the Bodjer girls

The mid semester exams begin next Monday

If you haven't got any work for me by Sunday drop me a card so I get it on Sunday's train. now be sure and don't forget it as I want to know what to do, am on the fence, balancing towards starvation.

Hoping you will do all for me you can. I will close with best wishes

I am

Your brother

B. J. Lorang
