IDAHO LAWYERS.

Populist Capture-Committee Named and Now for Work.

The Idaho legislators should be down to real, hard and earnest work by this time. They have much to do. The laws passed two and four years ago are causing no end of trouble to the attorneys and people of the state. Gov. Hunt wisely gave the solons a hint in his message to look after the old laws.

The Statesman says the republican members of the house, though in the minority, had considerable fun with their brethren before they were thoroughly organized. The new speaker, Mr. McKinlay, possibly wished the coin that was tossed at the caucus to decide who should have the speakership had turned against him, so sharply did some of the old-timers on the floor pitch their harpoons into him. It was sufficient to give him a foretaste of the good things coming. McKinlay is the youngest man in the legislature, being still shy of 22. Al though evidently somewhat lacking in experience in such matters, he has the nerve and the persistency to master the intricacies of parliamentary tangles and will no doubt come out all right. He will probably have to rendezvous some of the boys, though, before he gets through.

French of Latah will prove a valuable member as was demonstrated in the opening of the session. Triesch of Nez Perce is likely to show up well in the fusion ranks, so also Edward Walters of Shoshone who should have been elected speaker.

Tom Hanshaw of Weiser is acting as dookkeeper for the third time and his mellifluous voice permeating the air announcing a message from the governor or the senate sounds good says the Statesman.

This is the sixth session of the Idaho legislature and contains 13 fusionists and 27 republican members.

Gov. Hunt appointed K. I. Perky, chairman of the democratic state con-

Telephone Co., but the house rejected a similar offer, believing it scented "soot in the coal bin."

Gov. Hunt sent to the senate the appointment of John S. Barrett of Bear Lake to be immigration agent to succeed C. J. Bassett, last week, but was referred to the judiciary for a few days. Confirmed Saturday.

J. L. Weaver was reappointed adjutant general of the Idaho militia.

Both houses unanimously passed a memorial to congress praying it not to pass the land leasing bill. The land leasing question in Idaho has become a menace to the best interests, tending to largely decrease immigration. It is generally taken advantage of by corporations.

Politically, the house is interesting. The fusion forces are not entirely harmonious—the republicans are. This was conclusively shown in the ballot on the ship subsidy memorial, when two silver republicans voted with the republicans. House stands—republicans 20, democrats 16, silver republicans 7, populists 6.

Moore of Latah will bring up an ar-

Davis of Owyhee, railroads and corporations, Walters, agriculture and livestock, Pence, public lands, Bangs, irrigation and water rights, Mandell, military and Indian affairs, Kelly, publishing and printing, Scott, enrollment, Davis of Elmore, journal, Triesch, appropriations, Henry.

A bill was introduced in the house, senate bill No. 2 by Moore, for an arbitration commission; No. 4, for a bond issue for Albion normal school; No. 5 by Erickson, disqualifying members of the legislature from holding offices created during their term.

In the senate the printing committee was increased from 3 to 5, and tall Moody had not a word to say. Wonder why?

Other bills: No. 5 by Ballentine, for the appointment of a boiler inspector; No. 3 by Ballentine, relating to the soldiers' home, adding two G. A. R. men to the trustees and providing for rebuilding on the present site.

Gov. Hunt appointed the following on his staff: S. E. Meyer of Boise, to be colonel and judge advocate; John Brown, of Blackfoot, lieutenant colonel; M. J. Link of Warden same rank; J. M. Pierce of Albion ditto; W. H. Young of Concord ditto.

The anti-ship subsidy bill bobs up now and then and referred to other committees with instructions to give it a working and needed repairs as it was in such miserable condition to be put on ice at Washington.

Bangs has the honor of presenting the first bill of the session. The bill was for an appropriation of \$25,000 for the payment of the salaries and was at once passed.

Gov. Hunt has abolished the famous permit system in the Centur d'Alene, established by Gov. Steuneger soon after the riots.

Mr. Deconart wants to be mine inspector of Idaho and has presented a bill creating that office. The salary is placed at \$2,000 with a deputy at

—style, refinement and effectiveness characterizes the many fashion and military models presented in The Designer for February, and they are illustrated in the most artistic manner in colors and in black and white. The professional dressmaker as well as the amateur dressmaker will find much to interest and instruct in "Points on Dressmaking," "Window Draperies," "Household Advice" and "Cookery." "Etiquette Hints," "A Danish Valentine Party," "Among Ourselves," "A Knight in Army Blue" are among many other interesting articles. The Designer combines helpfulness and entertainment for the household to a wonderful degree, and certainly supplies most generous excellence for 10c a number, \$1 year.

Old People Made Young.
J. C. Sherman, the veteran editor of the Vermontville (Mich) Echo, has discovered the remarkable secret of keeping old people young. For years he has avoided nervousness, sleeplessness, indigestion, heart trouble, constipation and rheumatism, by using Electric Bitters, and he writes: "It can't be praised too highly. It gently stimulates the kidneys, tones the stomach, aids digestion, and gives a splendid appetite. It has worked wonders for my wife and me. It's a marvellous remedy for old people's complaints." Only 50c., at Kennedy's drug store.

Boon Fide Salary—\$12 Weekly.
Men and women to appoint agents and represent us, some to travel, others for local work. \$12 weekly salary and expenses. Old established house, pleasant permanent position, rapid advancement and increase of wages. Write at once, Address, BUTLER & ALGER, Dept. E, New Haven, Conn.

NEWS CLUBBING RATES.

NEW SUNDAY REST LAW.

Prescribes the Regulations for Conducting Business on the Sabbath Day.

Boise, Idaho, March 11.—A bill that is of direct interest to all the people of the state is that providing for a Sunday rest law. It passed both houses of the legislature and will undoubtedly be signed by the governor and will become effective 60 days after receiving his signature. Its provisions are as follows:

"Section 1. That the first day of the week, commonly called Sunday, is hereby set apart as a day of public rest.

"DETER.—"Cancel that order," the customer said, "and give me an order for a country sausage." "Sidetrack is out and make it bulldog," yelled the waiter, and he is wondering yet by the man grabbed his hat and left.

—Dr. W. Wymond Miller informs that Mrs. Conrad Weiber has entirely recovered from her recent attack of smallpox and no other member of the family has shown the least sign of taking the disease, all having been vaccinated. The quarantine will be raised as soon as the evidence can be thoroughly furnished. Both the public and Catholic schools opened Monday and services are being held in the churches, all danger of the disease spreading being considered over with.—Uniontown press.

—The Asotin Sentinel has the following to say concerning the Snyder stock company of which George Gallett of this place is one of the principal owners:

"C. A. Snyder, of the Snyder Stock company, whose headquarters are at Asotin and Lewiston a few days this week. While down this trip, Mr. Snyder sold two carloads of five-year-old stall-fed steers to Dill others, the Lewiston butchers, at a price we understand in the vicinity of five cents per pound. While the price for stock-cattle remains about

"Sec. 7. All acts and parts of acts, either general or special, in conflict with the provisions of this act are hereby repealed in so far as they conflict with the provisions of this act."

DATA OF GEM STATE.

Here are some facts picked from the third biennial report just issued by Allen Miller, commissioner of labor, immigration and statistics for Idaho:

Idaho has about 50,000,000,000 feet of timber, of which amount 30,000,000,000 feet is located in the Clearwater basin.

Idaho has nearly 5,000,000 acres of land under cultivation.

The irrigated area reaches over 1,500,000 acres.

The population of the state is easily 300,000.

The wheat yield for 1906 reached over 9,000,000 bushels.

The stock shipments for that year reached 1,556 carloads of swine.

And 2,797 carloads of beef cattle.

Also 909 carloads of horses and 4,699 carloads of sheep.

The wool production is estimated at 25,000,000 pounds.

1,705 MILES OF RAILROADS.

Idaho has 1,645 miles of railroads in operation, and those under construction will make the total about 2,180.

The mining output for 1906 was \$29,245,000.

The increase for the last two years over the previous two years was about \$7,000,000.

The manufacturing establishments number very close to 1,000; capital invested in these is shown to be considerable over \$18,000,000.

Men employed in mining and manufacturing in 1906 reached over 15,500.

There are at present more than 1130,000 farmers in Idaho.

VALUATION FOR STATE TAXES.

The valuation of the state for taxation in 1906 was \$81,000,000, the increase in two years being \$13,000,000.
