Do Neighbor's Work In Hurry

Henry Lorang was a happy man Tuesday evening when six of his neighbors, Frank Kambitsch, W. O. Borgen, Fred Baumgartner, John Kluss, Ed Hasfurther and Ed and Steven Kambitch moved their tractors on the Lorang place Tuesday noon and disked, harrowed, seeded and harrowed 46 acres of land. Walter Klemm drove the Kluss tractor and on each of the other machines were their owners who did a quick job of putting in the 45 acres of peas.

Mr. Lorang was made happier on Wednesday morning when Fred Comnick, Frank Kambitsch and Ed Hasfurther plowed an additional 15 acres of ground, work which had to be done this spring. Rather unfortunate this spring, and unable to get all his work done, Mr. Lorang was so appreciative and thankful that he groped for words to express himself. However, he wants to thank his kind neighbors most sincerely. He also wants to thank the women of his community for the offer of their domestic services.

With time nearing a late limit for seeding the assistance given Mr. Lorang was a most kindly act which he feels he never can repay, but too, the men who donated their time and equipment enjoyed being of service as the red tractors, yellow tractors, harrows, discs and drills followed one another about the field which is located across the road from the home. No doubt the kind neighbors will witness the crop grow to maturity with more than a passing interest hoping that it will be one of the best in the country.
