Sep. 21, 1944

Dear Dad,

The bugle has just started another day as the first faint indications of the dawn appear in the Eastern skys. A day just like yesterday and undoubtly a good deal like tomorrow. The days come and go in such a fasson, soon adding themselves into weeks and then into months, which come out to be a surprisenly short time.

I suppose school has started again by now. I hope that Joan is settled in Moscow + has learned her way around the campus. As for John what has he decided to do.

How did harvest come out this year. The last that I heard was Johns letter on Aug. 20. Each day we keep hoping that a mail boat will come in. Mabey today. For now,

Love to all

Jim
