Genesee Newspaper article, Nov. 8, 1918

Just what the boys, who are fighting with the American forces, think of the closing of the war with Germany is well conveyed in the following extract taken from a letter to C.P. Whalen from his brother, L. L. Whalen, who is with the marines in France:

"I see where Bill wants to make peace and cease the shedding of blood. Don't you think that it is nice of him to consider that sort of a thing after being responsible for the millions of lives which have been lost during this war. However, I am of the opinion that the dear man wants a little time to drag up a few of his heavies and kill a few more. Possibly I am wrong and maybe he has fell for the fact that he is being whipped on all fronts and it is an opportune moment for him to draw back a little and take water. I know that my outfit made an attack and brought in several prisoners. All were the very poorest specimen of soldiers. Looks as if he had called upon his late resources. Peace would be a nice thing, that is if, it can be made as we, or our president, has layed it down in his fourteen proposals, and if Germany wants to consider those as the very lowest offer, as I understand that she does; why, everything is materializing very nice for a swift, to a just, and an honorable peace. Then – you can rest assured that the kid brother is coming back as soon as possible to the dear old U.S.A., from which I came, and for her, to do my bit."

His address is L.L. Whalen, Ph M-3, Med. Dep't 6<sup>th</sup>. Marines American E.F.
