Dear Henry

Having been very busy and still being-- so I have neglected to write and probably would have delayed still longer supposing, of course, you were too busy to answer. But I see or rather hear from a letter that you are writing school notes. Have entered into a play and have a girl. Now beloved if you have time to attend to all these things, you have time to write to me. Of course I hardly think you have time for all those things but you can drop the girls you know.

But for all that, I have treated you better than I did the boys I sent the 'lemon' postal card to, yellow and shaped like this . He wrote right away and thanked me for the nice football!

We are having a nice time, in a way here though, of course, we know so few people and people don't make friends in a city and even if they did I am too shy. Going to a Business College, too, as I am, is different from High School by a whole lot. There are quite a number of men and women studying and of course they are all on business tract just like I am. Of course we have been to the theatre several times, have heard Sousa's Band led by himself, Maud Powell, the great violinist and Olga Nethersole. We also saw the Oregon-Idaho football game. But despite this round of gaieties I do feel a little lonesome and think often of Genesee and we do not forget the Lorang family; how could we when Mama has her Charles; Dorothy her Barney and I my-----.

Do you find it necessary to call down the new teacher very often or do you find that he maintains the proper respectful manner? Enlighten me.

Yours sincerely,
Edna V. Driscoll
